RE: PABCO® Gypsum Building Product Disclosure and Optimization–Sourcing of Raw Materials

PABCO® Gypsum operates two gypsum panel manufacturing plants in the United States at the addresses below:

- 8000 E Lake Mead Blvd.
Las Vegas, NV 89115
United States
- 37851 Cherry St
Newark, CA 94560
United States

Our Las Vegas facility utilizes naturally occurring gypsum mined from our adjacent mine and our Newark facility utilizes naturally occurring gypsum outsourced from an external mine. Our 100% recycled paper for the facings is sourced from PABCO® Paper located at 4460 Pacific Blvd in Vernon, CA.

PABCO® Gypsum manufactures 1/2" Regular, 1/2" LITECORE®, and 1/2" PABCO® Interior Ceiling for non-fire-resistance rated interior use. The table below lists the recycled content per product:

Product Name	Post-Consumer	Pre-Consumer	Total Recycle Content
1/2" PABCO® Regular	1%	11%	12%
1/2" LITECORE® Regular	1%	12%	13%
1/2" PABCO® Interior Ceiling Regular	1%	11%	12%

Please contact PABCO® Technical Services for more information.

Thank you.
